

**Now, a simple answer for Moms with *troublesome teen* boys ...**

**Besides Tough Love, How Can I Change My Son's Life?**

- Do you want him to listen to you?
- Do you want him to talk to you?
- Do you want him to take an interest in school?

With my system and just being with him for 10 minutes a day, YOU can make a dramatic difference!

Dear Mr. Eastman;

I am so excited! Finally, after so much struggle, Ryan has his first job! He works at McDonalds. He was scared beyond belief his first day, but he learned how to make French fries. The days that followed, he learned one-thing-at-a-time: cold drinks, coffee, hamburgers, and the cash register. He is now a dynamic, outgoing, productive asset to McDonalds AND himself. Your learning system really worked - he has completely changed!

Thank you!

Ryan's Mom  
Orlando, FLA

**LIKE RYAN, YOUR SON WILL:**

- Find new interests
- Become more mature in his thinking habits
- His reading skills will increase
- He will speak up and verbalize what he needs to make himself happy
- Be able to generate his own money and foster his own independence

**Are you thinking to yourself - "This guy is *CRAZY*"!  
He doesn't know MY son!**

Well, believe me - with my help and by working with your son only 10 MINUTES A DAY, you will see a dramatic change in his behavior.

Dear Frustrated Mom;

I can help you. My name is Richard Eastman and I have worked with frustrated parents and school officials for years to help their teenagers **straighten up and FLY RIGHT!** They now take an interest in their lives. I guess you could say that I am absolutely committed to helping **teens** and I can prove to you what is possible through working with them only 10 minutes a day.

Stay with me here. I will prove to you---what you can do. Together you and I will give your **teen** son lessons he will not get in High School.

### **What Bad Habits Does Your *Teen* Son Have?**

- Keeping their room a disgusting mess
- Won't talk to me - just grunts
- Has bad attitude - doesn't seem interested in anything
- Stays out late at night and doesn't account for his time
- Tells lies
- Shows no interest in learning anything
- Won't take responsibility for anything or contribute to the household chores

### **And THAT'S not all!**

The pain you feel as you worry about his future is almost unbearable; Where will he end up?

Just reading the paper, day after day, and seeing all the trouble kids get into only worries you even **MORE! It is SO SCARY** to think that your son has no direction, seems distracted and uninterested in life - when all **YOU** want is for him to be happy and successful!

**I understand!**

### **Here is my "risk free" proposition for you!**

**My Part:** For 30 days, I will be your coach. With three books you probably already have, and my learning system, I can help you transform your relationship with your teenage son.

I promise you will want to buy more books when you see how great this learning system is!

**Your Part:** You will use these books to show him how to focus on what he wants to learn. You will ...

- Show him the value of his favorite words - words **HE** will choose that design his own education at his **OWN** speed - without a teacher!
- Show him the value of his own thinking

- Show him the value of bold confident new language

**AS AMAZING AS IT MAY SEEM** - His reading skills will improve because suddenly he will be able to say what he wants to say!

He will let you know how he feels - Believe me, his heart is in his hand.

Now, more than ever, your son's life is intense. His adventure, his feelings are ready for the real world. He wants to be himself.

Now, with my learning system, he can learn and understand the ultimate power of love, money, and freedom.

As a result of these books, he will have a new ability to think for himself and go to school because-he-wants-to.

**Not:**

- ... because he feels guilty.
- ... to make his parents happy.
- ... to make his teacher happy.
- ... to make his girlfriend happy.

**I Guarantee It!!**

Your son will discover and develop a new curiosity about the world In which he is living! Learning new hobbies, new habits, new interests will fascinate him!!

**Do you know what is important to your teen son?**

Money, toys, I know you have his list:

- Cars
- Computer
- Music
- Games
- Money

. . and the list goes on.

**So How Is He Going To Learn How To Make His Own Money?**

## **That's easy with my learning system!**

He will "accidentally" discover *leadership* skills that pay big money. He will discover social skills that are never, never, found in a High School textbook. What he learns in my books will double his money in any career he chooses.

This system is about self discovery and high speed learning. Most students stop waiting for the teacher to teach. They don't have the patience and are dropping out of school in record numbers. The figures are staggering - embarrassing!

In my 20 years as a Group Supervisor and Youth Counselor for the California Youth Authority, countless teens have told me that they sit in class and think to themselves...

**"Okay, 'Teach', I'm here ...  
Give me the info ... FAST!"**

And does that happen? NO! Because the teacher has to wait for everyone else in the class to catch up...

With my program, your son can work at his own speed, without waiting for the teacher or the rest of his class.

What I have found in my years as a professional working with *Teens* is that a social skills goal, *SET BY A TEACHER*, has little or no value for the Teen.

**Learning practical social skills are his own responsibility - his own business - and he can do it!**

***I know what I want to learn, and so does your son.***

My learning system includes powerful quotes from powerful people. They explain what he has to learn for survival in the **REAL WORLD**. They teach him that he needs to learn **HOW** to learn before he can learn **WHAT** to learn. These wise individuals have the answers for him so that he can become the mast of his own destiny!

**"After the pupil has been told what serves to make him wiser and better, he must be taught the purpose of physics, geometry, and rhetoric: his judgment once formed he will very soon master whichever branch he may choose."**

Schopenhauer

The secret to successful living and learning can be found in my list of 21 POWERFUL words.

He will learn how to focus like an Olympic Athlete on what is important to him. His focus on these simple daily-used-words will:

- Change his life.
- Renew his interest in learning.
- Reveal to him how to master required classes.
- Show him how to use good adult habits.
- He'll find the hidden value of his own work.
- He will discover a quiet faith and confidence.
- He will believe in the value of his own thinking.

He will learn the habits of successful leaders at home and at work:

- They are honest - THIS IS A KEY!
- They are people who need people!
- They understand human nature.
- They want to be effective and useful.
- They become a success because they have learned how to ask the right questions.

through the three books, and my learning system, he will learn where to find the *BIG MONEY* he wants to earn. So, Mom, what is your role in this?

### **What is it you can do for your teen son?**

Well, because you love him, you will encourage his enthusiasm and support him in practicing what he needs to learn. That support was called "facilitation" by *Dr. Carl R. Rogers, who was a "teacher's" teacher - Educators know that facilitation will help him learn from his curiosity.*

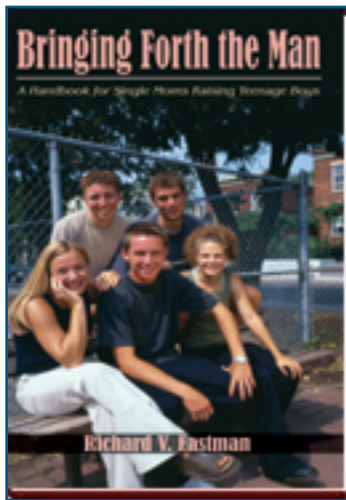

With only 10 minutes a day of guidance, you will give him what he most wants - the opportunity to be HEARD! By being his learning partner, the results you will produce together can be AMAZING!

Help your TEEN son find his own wisdom by letting him teach you what he has learned.

### **Sharing the learning can be truly ADDICTIVE!!**
